In chapter 3 of the Monograph: "THE HIGHER EDUCATION SYSTEM - POLISH PRACTICE" by Ewa Więcek-Janka, the names of professional titles used with reference to diplomas issued in Poland were in English and thus the following terms were used: *Bachelor, Engineer, Master*.

The terms in English (*Bachelor, Engineer, Master*) were used in chapter 3 of the monograph in order to present the education system at the university level in Poland in such a way as to be transparent for the foreign language reader (who is also the addressee of the project results) and to offer the possibility of making a reference to the higher education system in other countries.

Taking into account provisions contained in the Act of 20 July 2018 Law on Higher Education and Science (Journal of Laws 2018, item. 1668) and in the Regulation of the Minister of Science and Higher Education regarding studies of 27 September 2018 (Journal of Laws 2018, item. 1861), it is stated that professional titles that are granted in the Polish higher education system take the following names:

- *licencjat, inżynier* and equivalent titles: *inżynier architekt, inżynier pożarnictwa, licencjat pielęgniarstwa, licencjat położnictwa* – granted to first-cycle graduates;

NOTE: in chapter 3 of the Monograph generally referred to as *Bachelor* (when talking about first-cycle university graduates) or *Engineer* (when talking about first-cycle technical university graduates);

- *magister, magister inżynier* and equivalent titles: *magister inżynier architekt, magister inżynier pożarnictwa, magister pielęgniarstwa, magister położnictwa* – granted to second-cycle graduates;

NOTE: in chapter 3 of the Monograph generally referred to as *Master*;

- *lekarz, lekarz dentysta, lekarz weterynarii, magister farmacji, magister inżynier architekt* – granted to graduates of uniform Master's studies;

NOTE: in chapter 3 of the Monograph the above titles are covered by the term of *Master*.

Professional titles are entered by Polish universities in Polish both on diplomas and supplements to diplomas as well as on copies of these documents prepared in foreign languages.
